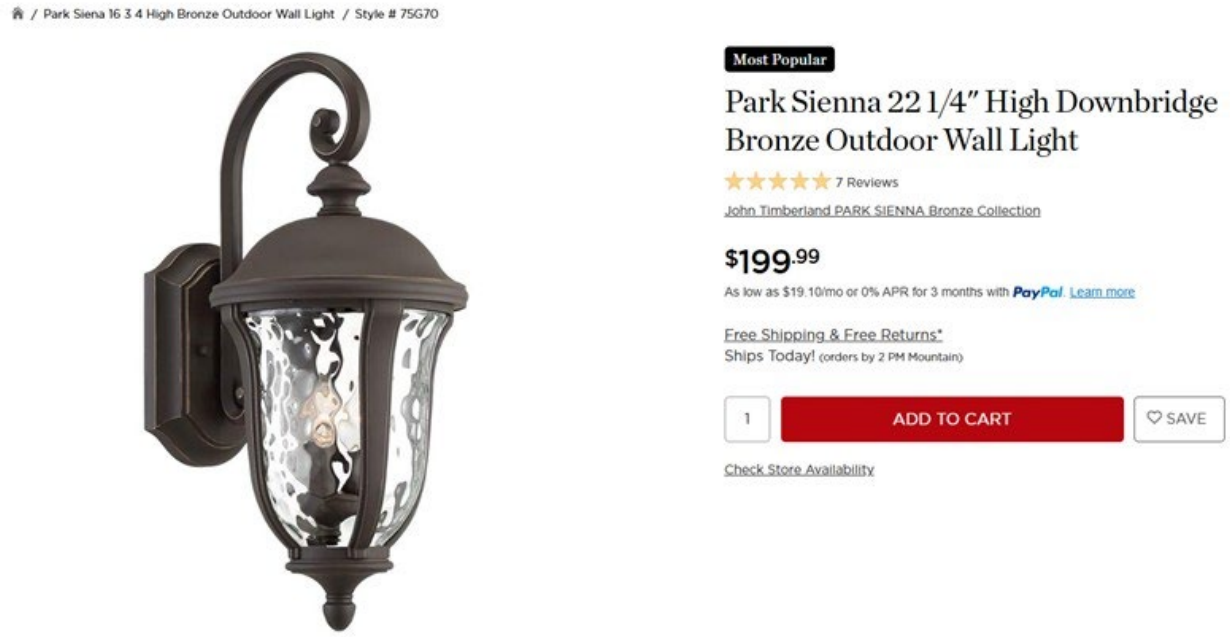
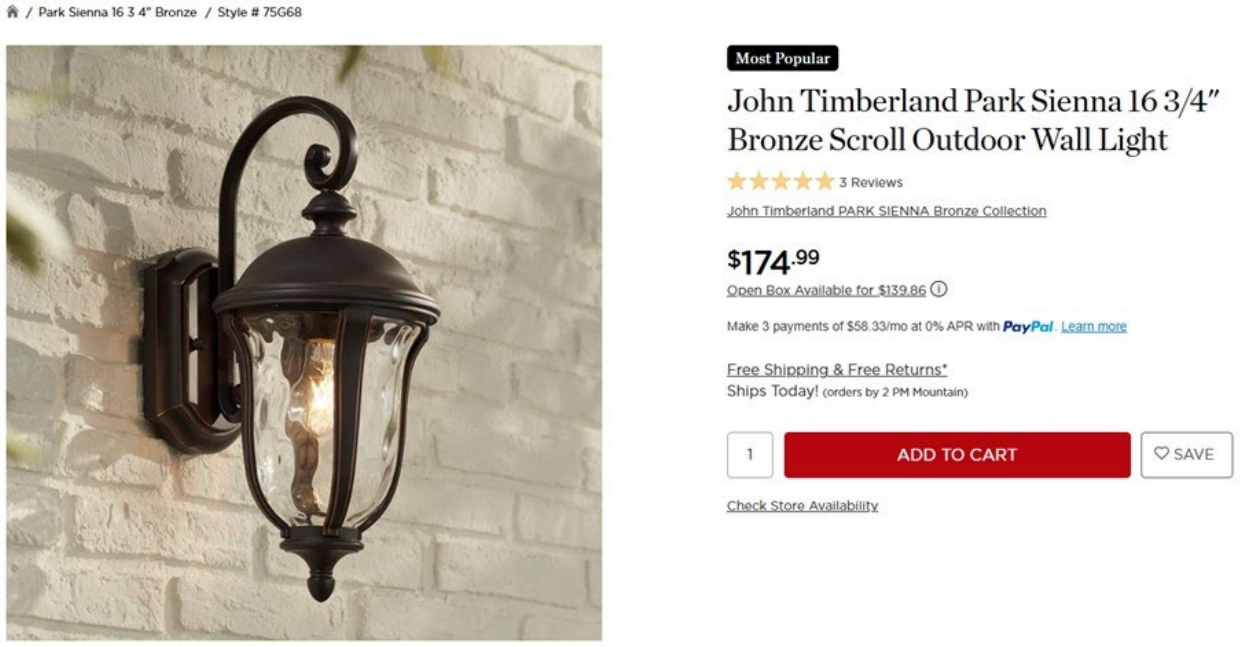
There are two wall sconces; the same model in two different sizes.

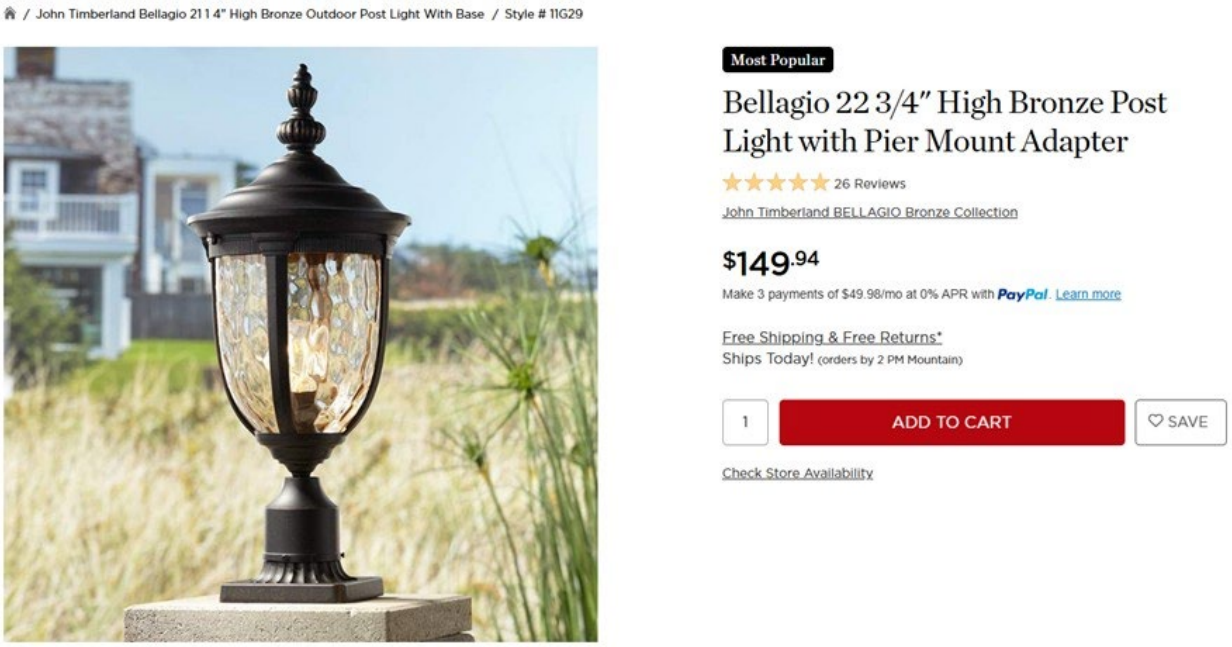
1. The sconces installed on the stucco surfaces:



2. The sconces installed on the rock faced surfaces (the base of the sconce needs to fit in the space provided, so the smaller sconce is required)



3. The light fixture on top of the mailbox (be sure to get the version with the Pier Mount Adapter included):



The fixtures do not have dusk to dawn sensors. To solve for this use lightbulbs that have the sensors built in. You will need two different kinds.

Sunco Dusk to Dawn LED Outdoor Lights Bulb, ST64 Edison Style Automatic Light Sensing Bulbs, 800 LM, 7W (60W Equivalent), 2700K Soft White, E26 Base UL 4 Pack

Return or replace items: Eligible through July 12, 2025
