* Length of time may need adjusted for individual lawns. It is the owner's responsibility to ensure the irrigation is working correctly & not running off into streets. You may need to water multiple times, shorter durations. I.E. 2 minutes, 3 times a day, to allow water to soak into the ground. Water run off from irrigation causes issues with asphalt and sidewalks; see the "Sprinkler Education Bulletin" on the community website at: <https://www.visioncommunitymanagement.com/current-homeowners/community?name=Town+Square>
