In addition to a defined scheme, for a given body color, any coordinating colors from the Sherwin Williams palette for trim/accent may be selected for review and approval.

This palette generally corresponds to the Dunn Edwards Palette (25 schemes, revised 12/6/2023). It was developed to provide a second source for paint color. Colors are to be chosen from one paint supplier palette or the other; colors are not mixed between the two paint supplier palettes.

Note 1: Variation within Scheme - body plus 2 or 3 coordinating colors

Note 2: Variation within Scheme - choose either body plus 2 or 3 coordinating colors
