

# Your Street/Parking Lot Will Be Closing

**Monday, May 7<sup>th</sup> (RED SECTION)**

**Wednesday, May 9<sup>th</sup> (BLUE SECTION)**

During the road closure, the road/parking lot will not be available for travel whatsoever. If you need to use your vehicle during the 24 –hour period of road closure, **please plan ahead** by parking your vehicle outside of the area designated as closed.

**\*\*See over for map of your street's specific day of closure\*\***

## **WHY IS MY ROAD CLOSING?**

The roads/parking lot in your complex are having a pavement preservation treatment installed that will help significantly extend the life of asphalt streets.

## **WHAT IF MY CAR IS PARKED ON A SECTION THAT IS CLOSED?**

Work will commence at 7:00 AM and the section being treated will be closed for approximately 24 hours. A tow truck will be called for any cars parked on the section scheduled to be treated that day. Towing expenses will be the owner's responsibility.

## **WHAT IF I DRIVE ON THE ROAD WHILE CLOSED?**

You will be liable for damage to your vehicle and to repair the area of road you have driven on. Minimum repair cost is \$600, maximum \$3,000, to repair the installed surface treatment. In the event of a life threatening emergency, emergency vehicles will not be stopped from driving on the treated surface.

## **SPRINKLERS MUST BE TURNED OFF**

Water may damage the installation of the surface treatment. Please do not have sprinklers set to come on 24 hours before the road closure, during the road closure, or 24 hours after the road closure. Damage due to sprinklers will result in the same repair cost of \$600 minimum, \$3,000 maximum, to repair the installed surface treatment.

**IF WEATHER CAUSES A HALT TO THE PROJECT, YOUR STREET MAY BE REQUIRED TO BE CLOSED ANOTHER DAY.**
