

Pointe Community Association

The Architectural Committee has approved of a selection of pavers for homeowners who wish to install or replace their pavers. The site is <https://www.belgard.com/products/pavers/catalina-stone-overlay>. Be sure to select only from the CATALINA STONE OVERLAY. Homeowners are still required to complete an architectural application.

The screenshot shows the Belgard website product page for Catalina Stone Overlay. At the top, the Belgard logo is on the left, and navigation links for location (Sierra Vista, AZ), commercial, contact, and search are on the right. A main navigation bar includes 'GETTING STARTED', 'PRODUCTS', 'DESIGN SERVICES', 'FIND CONTRACTORS & DEALERS', and 'PROFESSIONAL RESOURCES'. Below this, a breadcrumb trail reads 'Products | Pavers | Catalina Stone™ Overlay'. The product title 'CATALINA STONE™ OVERLAY' is followed by 'STONE TEXTURED'. A large image shows the pavers installed on a patio with a chair. To the right, 'APPLICATIONS' are listed with icons for 'WALKWAYS', 'PATIOS', and 'POOLS'. 'PRICING' is indicated by a '\$' symbol. A descriptive paragraph states: 'Catalina Stone offers crisp, clean lines with the additional option to overlay existing concrete. With the use of Techniseal® DriBond dry mudset, completely transform an existing driveway, walkway, patio or pool deck without the hassle and expense of removing the existing concrete substrate. In a matter of hours, you'll have a completely renovated space with an eye-catching contemporary look that's ideal for high-traffic areas.' Below the main image are three smaller thumbnail images of the pavers. At the bottom, a 'COLORS' section displays four color options: 'Bella' (a mix of tan, brown, and grey), 'Rio' (a mix of dark grey and light grey), 'Sierra' (a mix of brown and tan), and 'Toscana' (a mix of tan, brown, and grey).
